

## 5 YEAR GUARANTEE

FURNITURE

### MAURICE LAY DISTRIBUTORS LTD (TRADING AS CAPLE) FURNITURE DOOR CARE INFORMATION & GUARANTEE

---

PLEASE READ CAREFULLY BEFORE COMMENCING ANY WORK ON YOUR KITCHEN OR BEDROOM.

Before commencing any work on your furniture doors and accessories, i.e. drilling for appliance hinges or handles, please inspect the products thoroughly making sure that they meet your requirements and are free from scratches, blemishes or damage. Once the product has been altered in any way from the state it was supplied it CANNOT BE REPLACED.

#### FITTING DOOR & DRAWER FASCIAS

When fitting handles and hinges to doors and drawers, ensure the door is placed on a soft cushioned surface to avoid scratching the fascia.

#### CLEANING

Water should not be left on the surface of doors for any length of time, always wipe away any spillage immediately. On no account must an abrasive or solvent cleaner be used as they could damage the surface.

For product cleaning, only use a mild soapy water solution, wiping with a damp cloth and then finally dry with a soft, clean cloth. To clean timber doors, follow the grain pattern of the timber. Do not use an abrasive cleaner, bleach or other aggressive cleaners, as they could cause permanent damage to the surface.

#### IMPORTANT NOTES APPLICABLE TO FOIL WRAPPED DOORS

Always check that built-in ovens are fitted with heat deflectors, if required, and that the oven door is correctly fitted so the heat emissions are minimised. If purchased separately, please ensure the adjacent doors are not in contact with the deflectors, ensuring that they are adjusted so that maximum clearance from the deflector is achieved. Failure to follow this instruction will invalidate your guarantee. We also strongly advise that extractors are switched on above working hobs. We advise caution against customers positioning kettles and toasters in kitchen locations where the heat or steam they produce will damage foil wrapped fascias.

#### GUARANTEE

All Caple Kitchen & Bedroom Furniture components are guaranteed for 5 years against manufacturing defects, but not against customer damage or misuse. Where a manufacturing fault has been established, the goods in question will be replaced. No additional associated costs or compensation will be payable.
